

LEAD THE FUTURE OF 3D CELL CULTURE RESEARCH!

TheWell Bioscience Brand Ambassador Program is Now Open!

Are you a student or researcher passionate about reducing animal testing and establishing the next generation of 3D cell culture platform?

Join us in promoting synthetic, ethical 3D culture solutions that are transforming the future of biomedical research.

What You'll Do as our Brand Ambassador:

► Be an Event Organizer

Help us find campus events or conferences to showcase VitroGel®. We can sponsor or give a 5-min intro talk!

► Content Creator

Share photos, event ideas, and feedback — We'll feature your work online!

► Community Connector

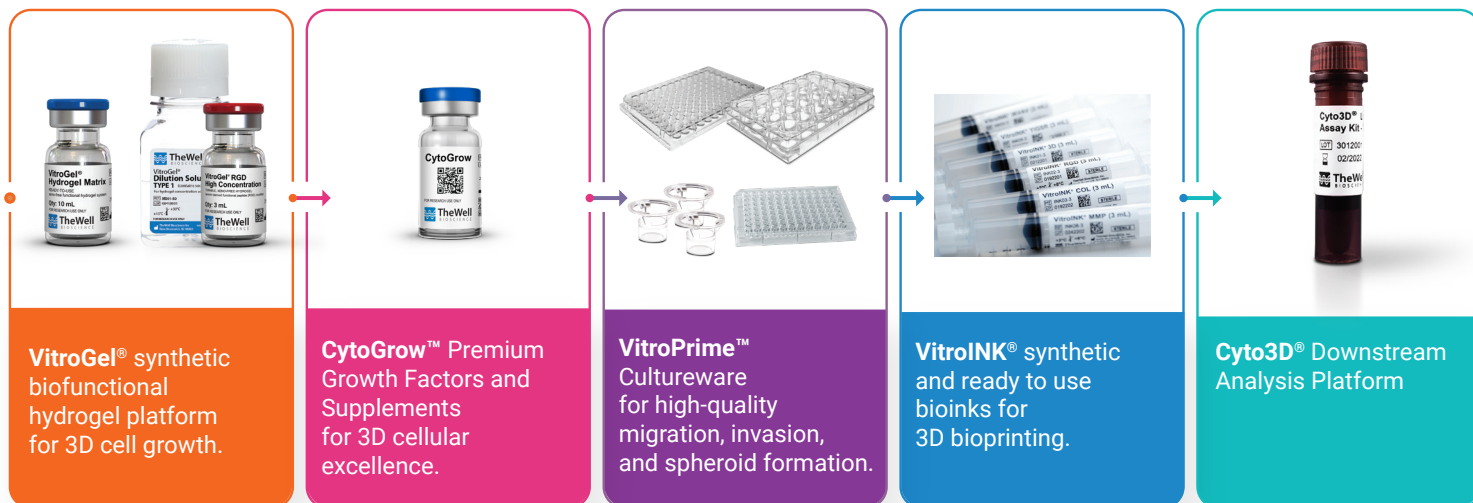

Build relationships with student groups, research labs, and faculty to spark collaboration and innovation.

► Valued Collaborator

Got any promo ideas, programs, or activities in mind? Let's team up and work together!

BE AN ADVOCATE FOR ANIMAL-FREE RESEARCH!

Be the face of a leading brand delivering end-to-end solutions for 3D cell culture research.

Interested? Reach out to us for more details!

Successful ambassadors will receive cash prizes, travel grants for conference presentations, and priority consideration for our internship program.
